STEVA Hockey

STEVA Hockey allows coaches the ability to review game and practice video to identify his or her team's strengths and weaknesses, identify individual strengths and weaknesses, and scout opposing teams or potential recruits.

STEVA Hockey is the #1 choice for video analysis software.

Not only is it the most affordable product of its kind on the market, its easy to use features and flexibility make it your best choice! Here are some of the reasons why:

Features

- Easy to use, quick to learn
- Runs on a Windows Operating System
- Develop your team and individual play through visual feedback
- Scout opponents and recruits
- Create team videos
- Add notes during play
- Name and categorize your own events
- Analyze live or recorded digital video
- Self-adjustable event duration
- Special teams tracking
- Change lines "on the fly"
- Review single game or multiple games
- Multi category sorting capability
- Mark and Categorize right from a DVD...no converter required
- 1-800 telephone support

More Features

- Save your sorted video clips
- Build custom movies
- Improve the quality of practices through visual feedback
- Multiple game event analyzing
- Create highlight reels
- Built in Video Compressor/ Converter
- Expandable video screen
- Built-in video controls
- Play one or all clips
- Build titles right into your clips
- Team and individual statistics built in
- Individual game and season statistics organizer
- Email notification of product updates

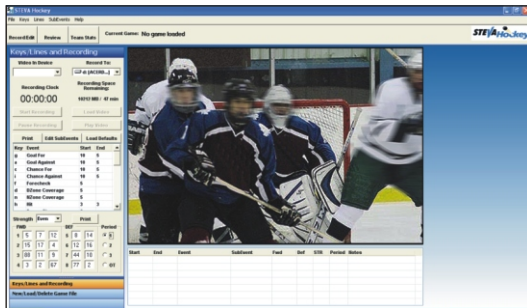

Video analysis for the purposes of visual feedback is a very powerful teaching tool.

STEVA Hockey provides coaches the industry's most affordable video analysis tool on the market today.

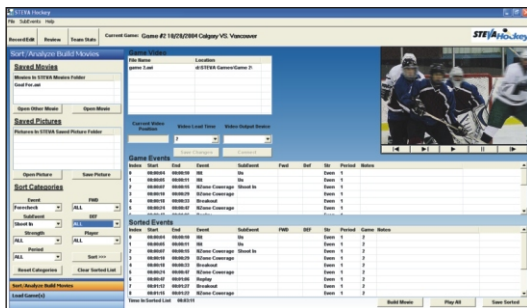

If you are a coach or a player on a competitive team, STEVA Hockey should be part of your “standard equipment.”
